Bell Portable Light V2

High-Gloss Black

Bell Portable is a minimalist, high-gloss lamp inspired by vintage car bumpers. Designed for effortless flexibility, it provides 6–9 hours of cable-free operating time and features a magnet to USB-C charging cable. A concealed diffuser produces soft ambient light, which now boasts a 10% increase in light output with no drop in performance, alongside a switchable colour temperature LED ranging from 2700K to 3000K. It is controlled by new continuous dimming levels and a memory function. Suitable for both indoor and outdoor use.
