Verner Panton, 1959

Panton Chair Classic Gold 2026

After conceiving a design for a solid polymer cantilever chair made in one piece, Verner Panton spent several years searching for a manufacturer. He first came into contact with Vitra in 1963 and together they started the development process based on Verner Panton's first full-scale model of the Panton Chair, and the chair was then presented in 1967. It was hailed as a sensation and received numerous prizes. The original version of the chair with a glossy lacquer finish is still marketed today under the name Panton Chair Classic.

In 2026, Vitra, in alignment with Verner Panton Design AG, will introduce a limited edition of the Panton Chair Classic in a gold finish. The Panton Chair Classic Gold is distinguished by an elaborate production process, with several stages executed through meticulous handcraft.

The limited edition Panton Chair Classic Gold will be produced in a series of 999 pieces in 2026.

Care instructions

How to clean and care for the Panton Chair Classic Gold

In order to remove dirt, use clear water with a splash of cleaning agent or glass cleaner. Apply this carefully on a polishing cloth, without exerting pressure. Then rub the surface dry with a polishing cloth. If done correctly, small scratches, resulting from use or incorrect cleaning, can be polished out by hand using a polish care product.

Be sure to note the following

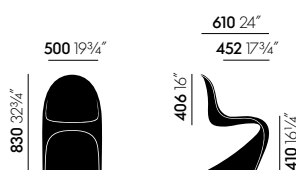

Exercise caution with standard microfibre cloths: they may contain metal filaments. Proceed with extreme care whenever cleaning. Do not apply partial pressure or high levels of heat to the surface, otherwise you may cause holograms or the

silver layer may tarnish. Please clean the surfaces carefully and without scrubbing to prevent scratches. Never use cleaning agents containing abrasive grains or powders, acetic acids or citric acids. Do not expose the product to direct sunlight permanently and, when not in use, store it in the protective bag if possible.

Product recommendations

- 3 M Perfect-It III Ultrafina high-performance polishing cloth
- Dr. Wack Air-Speed Wax
