A gift for you!

Alessi Gift Set offers a selection of essential items for the preparation and serving of traditional dishes and beverages: from pasta to coffee, everyone can find the perfect gift for their loved ones based on their tastes and preferences. Alessi Gift Set is a gift to express a heartfelt and personal thought.

“The act of giving a gift has always been an important and meaningful gesture in human history, surrounded by mysterious and complex rituals. However, in the contemporary world, these rituals have become

increasingly sophisticated. We know well how many of our products often find their purpose as gifts. The aim of the gift packaging project is precisely to emphasize this aspect of our products, their ‘gift’ identity. The Alessi Gift Sets are elegant boxes that present the objects according to functional themes (coffee, cocktails, wine service, etc.). Equipped with an interior, they allow for a beautiful display in a shop window while also being reusable at home as containers.”
Alberto Alessi

ALESSI GIFT SET
DESIGN BY AA.VV.

DEDICATED TO

Those who seek the perfect gift for lovers of a particular beverage or traditional dish, appreciating its proper preparation. And to design enthusiasts who value innovation and attention to design details in objects.

There's never enough hearts

"I still believe that finding a heart on your teacup helps you see the sunshine every morning". These are the words of Miriam Mirri, who has designed a family of objects whose reference symbol is the heart. An evocative shape that makes the elements of the Alessi&Tea set unique and refined. The mug, perfect for enjoying tea and herbal infusions, is paired with a long spoon, duly proportioned in size. An essential combination to offer a sweet warm cup from the heart.

SET ALESSI & TEA
DESIGN BY MIRIAM MIRRI

DEDICATED TO

For lovers of tea and hot drinks: an ideal gift for yourself or your loved ones to offer a surprise and celebrate special occasions.

DESIGN NOTES

Evocative

For the designer, the heart symbolises the essential and omnipresent flow of life.

Relationship objects

The To cup and the Big Love spoon demonstrate Miriam Mirri's extraordinary ability to interpret everyday objects with poetic ease and transform them into useful and familiar companions.

SUSTAINABILITY AND SAFETY

Big Love spoon is made entirely of steel, one of the most durable and resistant materials of all, environmentally sustainable throughout its life cycle and fully recyclable.

USE AND MAINTENANCE

EASY TO CLEAN

Clean the parts of the set with a damp sponge and a non-abrasive cleaner or in the dishwasher.

PACKAGING

The set is offered in a box specially designed for the Alessi & Tea collection.

Al dente!

The preparation of a good dish of pasta is a common activity in the daily life of many, yet the quality of the result largely depends on the attention to detail and the utensils we use.

The Alessi&Pasta set is the outcome of a research that refines some of the tools needed to cook a tasty dish of pasta. The enigmatic and elegant Voile measurer, conceived by Paolo Gerosa, always determines the right portion of spaghetti. Vabene, by Miriam Mirri, is a poetic and versatile tool for tasting any type of pasta and other food directly from the pot, that really helps

when “things get hot”. The Parmenide grater, designed by Alejandro Ruiz, offers freshly grated cheese and becomes a pleasant cheese container with its biological and evocative shape.

DESIGN NOTES

Mysterious, elegant, airy

Voile is a spaghetti fork for one, two or five people. Its mysterious shape is reminiscent of an airy, light image, a symbol of fluidity - ideal for use in the kitchen.

Poetic

Vabene’s delicate, feminine design transforms an everyday object into a poetic presence that enlivens the domestic landscape.

High quality

Voile is made of stainless steel precision casting using the lost wax process, just like the Vabene handle. The special design of Vabene requires meticulous workmanship, as the object is created from a metal plate through a series of mechanical pressing and punching processes.

Iconic

A sculptural and organic shape for an original interpretation of the classic cheese grater. Parmenide was included in the collection of the Museum of Modern Art in New York.

SUSTAINABILITY AND SAFETY

Voile and Vabene are made entirely of steel, one of the most durable and resistant materials of all, environmentally sustainable throughout its life cycle and fully recyclable.

USE AND MAINTENANCE

EASY TO CLEAN

Clean the parts of the set with a damp sponge and a non-abrasive cleaner. Dry carefully with a soft cloth. It is not recommended to put the PMMA binder of the Parmenide grater in the dishwasher. The Parmenide's steel body, the Voile spaghetti fork and the Vabene pasta taster, on the other hand, can be cleaned in the dishwasher.

PACKAGING

The set is offered in a box specially designed for the Alessi & Pasta collection.

DESIGN NOTES

For everyday coffee enjoyment

Essential shapes without sacrificing functional details, for a quality experience with your daily coffee.

Old rituals, renewed

The classic Moka espresso machine with two functional innovations: the inner shape of the kettle is designed to interrupt the extraction of the coffee at just the right moment, avoiding a burnt or bitter aftertaste; the V-shaped spout, reminiscent of a chicken’s beak, perfectly interrupts the dripping when pouring the coffee.

Elegant simplicity

With his signature minimalist approach, Jasper Morrison offers us a coffee cup of refined simplicity. The handles are attached to the cup body with the smallest possible radius, a sophisticated detail that ensures lightness and elegance. The slightly barrel-shaped body of the cup creates a special light reflection that emphasises its seemingly simple shape.

SUSTAINABILITY AND SAFETY

The housing of the Pulcina espresso machine is made of aluminium and is fully recyclable.

USE AND MAINTENANCE**EASY TO USE**

Pulcina is practical, functional and just as easy to use as conventional espresso machines. Fill the boiler with cold water, making sure the water level stays below the safety valve. Place the filter funnel into the boiler. Fill the filter funnel to the brim with ground coffee and level it by pressing gently. Screw the upper body firmly onto the boiler. Suitable for use on electromagnetic induction plates.

EASY TO CLEAN

Wash the cups in the dishwasher. Wash Pulcina with warm running water and a non-abrasive cloth, not in the dishwasher.

PACKAGING

The set is offered in a box specially designed for the Alessi & Coffee collection.
