Installation.

CARE INSTRUCTIONS

Wipe the parts with a dry or damp cloth soaked in warm water. Use only soft cloth for wiping and polishing, never sponges or steel wool.

Do not use abrasive household cleaners.

Do not use acidic or alkaline cleaning materials, glass cleaner or household ammonia.

HANDLING

Handle the lamp with care, as each individual glass layer is fragile. Before handling, remove rings, bracelets, watches, or other jewelry to avoid scratching or chipping the glass. Always use clean, dry, lint-free cotton or rubber-grip gloves when moving, cleaning, or reassembling the lamp to improve grip and prevent fingerprints or oils from transferring onto the surface.

When lifting or transporting the lamp, support it from underneath the metal base. Do not lift or carry the lamp by the glass petals. During cleaning or reassembly, ensure each glass component is correctly aligned and seated in its designated slot on the metal frame.

TROUBLESHOOTING

If lamp does not light, turn off the power. Check the bulb for a broken filament. Replace bulb if necessary, then turn it on. If the lamp still does not light, please contact customer service at the local dealer. If the external flexible cable or cord of this lamp is damaged, it must be replaced by a qualified electrician in order to avoid a hazard.

TECHNICAL INFORMATION
