A HISTORY OF WINE AND DESIGN

Objects for serving wine have always been an area of specialisation for Alessi. The first catalogues published in the 1920s and 1930s already presented a wide variety of products: from champagne glasses to coolers, from flask holders to liqueur services. Over the years, the exploration of this world has led to the creation of objects that have become iconic, such as the collection of bar and wine accessories designed by Ettore Sottsass or the Anna G. and Parrot corkscrews created by Alessandro Mendini. The Alessi & Wine set pays tribute to this long design tradition, offering a selection of essential accessories to complement the service of wine.

DEDICATED TO

To wine lovers who wish to enhance the tasting experience with functional and evocative objects.

ALESSI & WINE - ANNA G. SET

YOUR WINE IS SERVED!

Over the years, Alessi's research into objects for the service of wine has led the company to create objects that have become iconic, that have expanded the imagery associated with this world. This set comprises four basic items for every sommelier: the Anna G. corkscrew and Anna Stop 2 stopper, both designed by Alessandro Mendini, the Noè drip ring by Giulio Iacchetti and the 5009 bottle coaster by Ettore Sottsass.

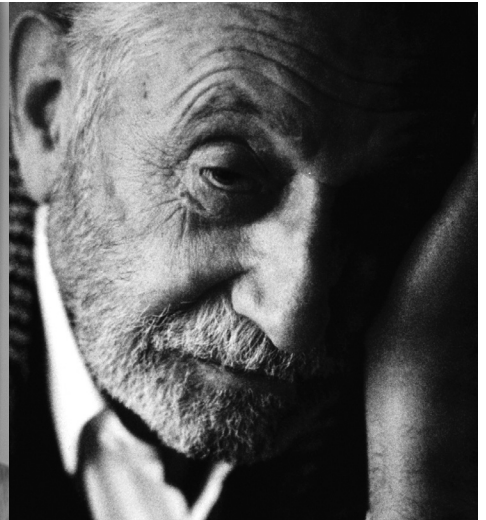

DESIGNERS

Alessandro Mendini

Giulio Iacchetti

Ettore Sottsass

COMPONENTS

Wine serving kit composed of

AAM01 "Anna G." - corkscrew in thermoplastic resin and chrome-plated zamak

AAM06 "Anna Stop 2" - stopper in thermoplastic resin and chrome-plated zamak

GIA11 "Noè" - drop ring in 18/10 stainless steel

5009/ 15 - bottle coaster in 18/10 stainless steel.

DESIGN NOTES

Essential

The Alessi & Wine set pays tribute to Alessi's long design tradition in the world of objects for serving wine: four different essential items, designed to make offering and sharing wine something special.

Ongoing research

Four decades of explorations: from the 1970s, with the classic bar and wine service accessories designed by Ettore Sottsass, to the smiling Anna G. corkscrew designed by Alessandro Mendini in 1994, up to the ironic drip ring created for the Noè collection by Giulio Iacchetti in the new millennium.

SUSTAINABILITY AND SAFETY

Zamak is a zinc-based alloy which does not release substances that could cause pollution into the environment during the manufacturing process. The low melting temperature of the alloy also allows considerable energy savings, which helps reduce the exploitation of natural resources upstream.

Steel is one of the most durable and resilient materials of all, eco-friendly throughout its life cycle and completely recyclable.

The steel parts and thermoplastic resin elements are easily disassembled, enabling the recycling of the materials.

USE AND MAINTENANCE

[Easy to clean] Wash the items in the set with a soft sponge and non-abrasive detergent. The bottle coaster is also dishwasher safe.

CODES AND VARIANTS

GAM01SET - Alessi & Wine

Design AA.VV., 2023

Set composed of "Anna G." corkscrew in thermoplastic resin and chrome-plated zamac, "Anna Stop 2" stopper in thermoplastic resin and chrome-plated zamac, "Noé" drop ring in 18/10 stainless steel and bottle coaster in 18/10 stainless steel.

Packaging

Set presented in a box designed especially for the Alessi & Wine collection.

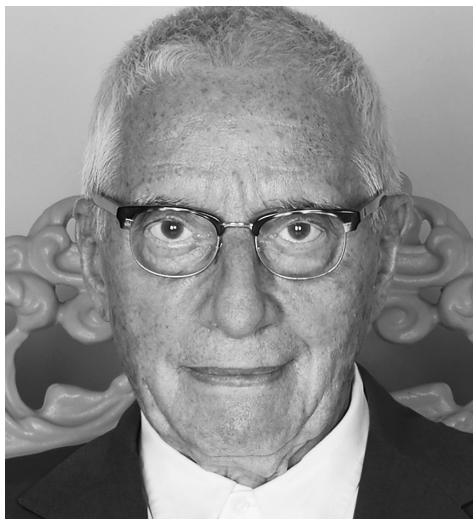

ALESSI & WINE - PARROT SET

THE TOOLS OF THE WINE LOVER

Drawing on over a century of specialisation in the sphere of objects for serving wine, Alessi proposes a set that encapsulates the essential tools found in every winelover's home. The iconic Parrot - Proust corkscrew designed by Alessandro Mendini joins the minimalist Noè wine stopper and the expressive yet refined design of the Sitges bottle coaster. A small, heterogeneous collection capable of beguiling and providing everything necessary for a wine tasting experience.

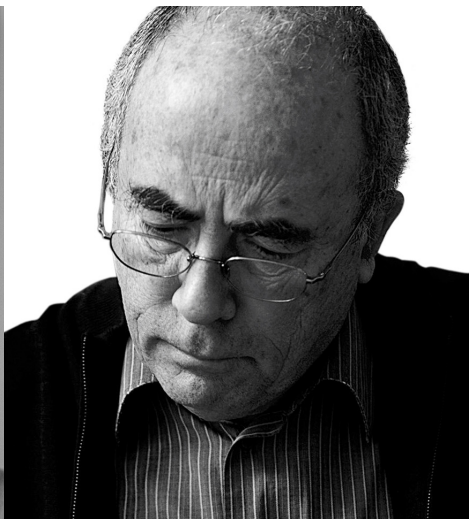

DESIGNERS

Alessandro Mendini

Giulio Iacchetti

Lluís Clotet

COMPONENTS

Wine serving kit composed of

AAM32 1 - "Parrot - Proust" sommelier's corkscrew made of die-cast aluminium and PC, decorated by hand

GIA12 - "Noè" 18/10 stainless steel expansion stopper for wine and champagne bottles

LC01/ 17 - "Sitges" 18/10 stainless steel bottle coaster.

DESIGN NOTES

For moments to be shared

A sommelier corkscrew with an evocative shape, a graceful stopper and an elegant bottle coaster to honour your guests with a fine wine served with expressive and refined design tools.

Versatile

Three designers with different design language, three objects that will interact on your table to make even the simplest toast special.

SUSTAINABILITY AND SAFETY

The aluminium of the corkscrew is a completely recyclable material and the steel, which makes up the remaining elements, is one of the strongest and most durable materials of all, environmentally friendly throughout its life cycle and completely recyclable.

USE AND MAINTENANCE

[Easy to clean] Wash the items in the set with a soft sponge and non-abrasive detergent. The bottle coaster is also dishwasher safe.
