MUUTO

New Brink Chair - developed through years of veneer refinement

Brink Chair by Thomas Bentzen for Muuto pairs a slim silhouette with surprising strength, developed through years of veneer refinement. The shell is crafted in form-pressed veneer made using FSC™-certified wood. A distinctive bend reinforces the structure while softened edges support the body. Set on a chrome or powder-coated cantilever base, the chair introduces controlled flex in both frame and shell, enhancing comfort through natural movement while maintaining a precise, graphic expression. The Brink Chair is available in non-upholstered, seat-upholstered, or full-front-upholstered versions and the pads are removable. Please note: Coltre Sofa will launch in September 2026 and will be available in multiple colors.

A-Base: The shell is made from form-pressed veneer with a core of beech veneer layers and an oak surface veneer, made from FSC™-certified wood. The surface is finished with a water-based lacquer.

The A-base is made from powder-coated or polished aluminum, produced using 72% post-industrial recycled aluminum. Plastic glides are pre-mounted, with felt glides available as a spare part. Linking brackets are available as an add-on and must be purchased separately.

Cantilever Base: The shell is made from form-pressed veneer with a core of beech veneer layers and an oak surface veneer, made from FSC™-certified wood. The surface is finished with a water-based lacquer. The cantilever base is made from powder-coated or chromed bent steel tube, produced using a minimum of 25% post-industrial recycled steel. Glides are pre-mounted and can be used as either felt or plastic by simply flipping them.

Wood base: The shell is made from form-pressed veneer with a core of beech veneer layers and an oak surface veneer, made from FSC™-certified wood. The surface is finished with a water-based lacquer.

The legs are conically pressed, with a core of peeled beech veneers and an outer layer of oak veneer. The base is finished with water-based lacquer for all colors. Plastic glides are pre-mounted, with felt glides available as a spare part.

Please note: The Brink Chair will launch in September
