

Under The Bell Pendant Lamp

"Under The Bell is more than just a lampshade—when situated over a table or in an open space, the bell-shaped light creates its own space within the environment. As such, the design embraces and shelters the people underneath, both in a physical and abstract manner, for an intimate atmosphere. The design is made using fibers from recycled plastic bottles that, along with its unique shape, enables Under The Bell to absorb sound and improve the acoustics of any room."
